Select set-up cloud grosens system

Select the region you are located. The Cloud Bridge is 2 currently only supported in Japan, South Korea, United Arab Emirates and Saudi Arabia.

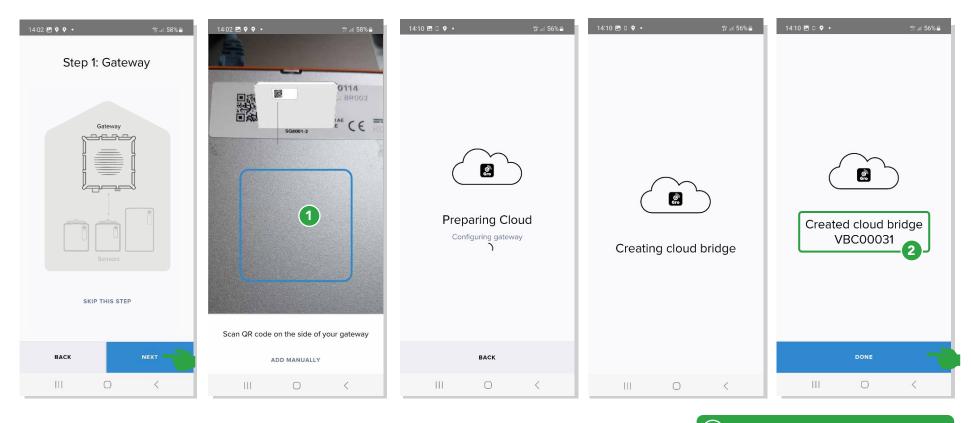

#### Let's Start: System explanation

## Step 1: Gateway installation and cloud bridge creation

 Scan the QR code on the gateway. NOTE: Do not plug in ethernet/ power the gateway yet, that is a later step

The actual number of created cloud bridges varies.

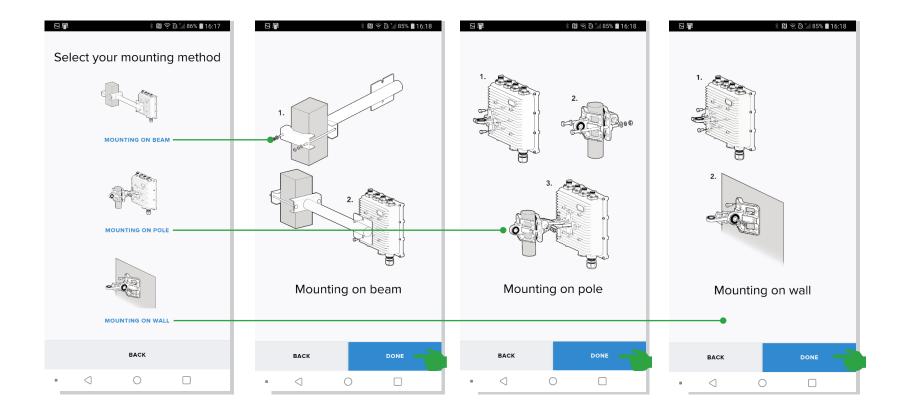

### **Step 1: Gateway installation**

 Connect the antenna. NOTE: 2 antennas are delivered with the gateway. Ideally, use the longest antenna.

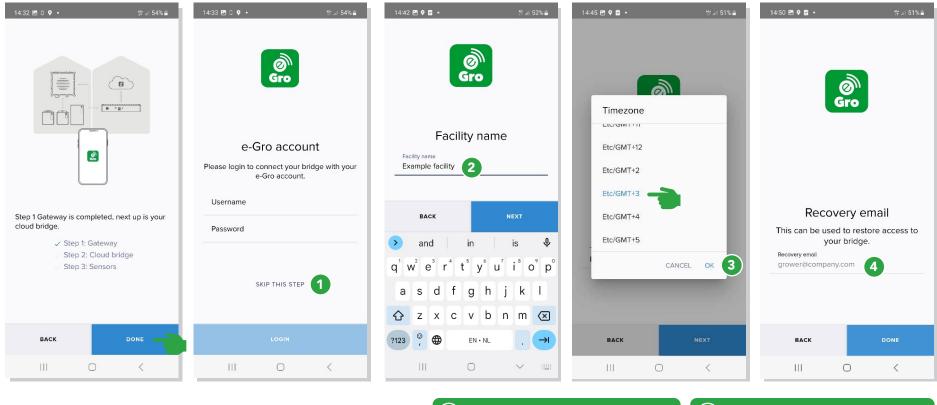

## **Step 1: Gateway installation**

#### Step 2: Cloud bridge installation

(2)

- Optional: Connection to e-Gro account. NOTE: if you have not subscribed
  - to e-Gro you will skip this step
  - Enter facility name and press next

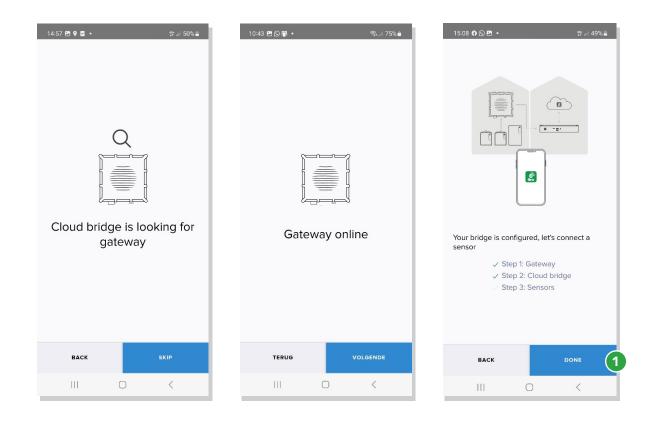

#### (3) Select timezone, press OK and next

4

) Enter your email address for recovery purposes. Note this is needed for events such as getting a new phone or when disconnected from the cloud bridge

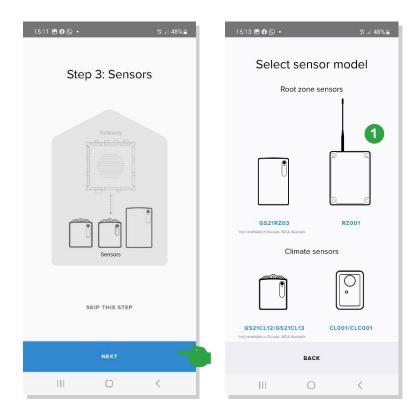

## Step 2: Cloud bridge installation

#### Step 3: Add GroSens sensors

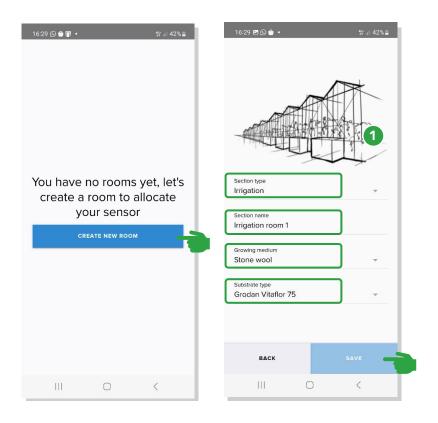

) Select the sensor to install and follow the onscreen instructions. Additional details on GroSens sensor installation, please refer to the GroSens installation manual

(1)

#### Step 4: Create a room or zone

The Grodan Group supplies innovative, sustainable stone wool substrate solutions for the professional horticultural sector. Based on Precision Growing principles, these solutions are particularly applied to the cultivation of vegetables and flowers. In addition to its stone wool substrates, the Grodan Group also provides tailor-made advice and tools to support Precision Growing and thus facilitate the sustainable production of healthy, safe and tasty fresh produce for consumers.
